

AdjustDisplayRectangle

{mosimage popup=0}

Naxos UIComponents container controls has the ability to reduce the DisplayRectangle size in accordance with Caption's size, Text's size and Border's size. In the images below, the control's background border thickness is set to 8, so the use of AdjustDisplayRectangle property is more noticeable.

- Use AdjustDisplayRectangle property to exclude or include captions, texts and border areas from docking of the contained controls.

- For use with VS2003, grid is visible according the DisplayRectangle area. AdjustDisplayRectangle make this grid display more efficient

-
DisplayRectangle area excludes areas occupied by caption, texts and borders

- Smart docking

This object is part of Naxos UIComponents and Naxos UIComponents Lite
